SAFETY INSTRUCTIONS

Intended Use

The following safety guidelines are intended to prevent unforeseen risks or damage from unsafe or incorrect operation of the appliance. Please check the packaging and appliance on arrival to make sure everything is intact to ensure safe operation. If you find any damage, please contact the retailer or dealer. Please note modifications or alterations to the appliance are not allowed for your safety concern. Unintended use may cause hazards and loss of warranty claims.

Explanation of Symbols

Danger

This symbol indicates that there are dangers to the life and health of persons due to extremely flammable gas.

Warning of electrical voltage

This symbol indicates that there is a danger to life and health of persons due to voltage.

Warning

The signal word indicates a hazard with a medium level of risk which, if not avoided, may result in death or serious injury.

Caution

The signal word indicates a hazard with a low degree of risk which, if not avoided, may result in minor or moderate injury.

Attention

The signal word indicates important information (e.g. damage to property), but not danger.

Observe instructions

This symbol indicates that a service technician should only operate and maintain this appliance in accordance with the operating instructions.

Read these operating instructions carefully and attentively before using/commissioning the unit and keep them in the immediate vicinity of the installation site or unit for later use!

⚠ CAUTION

- Read rules for safe operation and instructions carefully.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- Keep electrical appliances out of reach from Children or infirm persons. Do not let them use the appliances without supervision.
- When the appliance is not in use and before cleaning, unplug the appliance from the outlet.
- When the fan was assembled, the rotor blade guard shall not be taken off anymore.
 - Prior to cleaning, unplug the fan.
 - The rotor guard shall not be disassembled/opened to clean the rotor blades.
 - Wipe the fan enclosure and rotor blade guard with a slightly damp cloth.
- Never insert fingers, pencils, or any other object through the grille when fan is running.
- Disconnect fan when moving from one location to another.
- Indoor and household use only.

⚠ WARNING

- If the supply cord is damaged, it must be replaced by manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
- To protect against the risk of electrical shock, do not immerse the unit, cord or plug in water or other liquid.
- When the appliance is not in use and before cleaning, unplug the appliance from the outlet.
- Ensure that the fan is switched off from the supply mains before removing the guard.
- DISPOSAL: Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available. If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

Frequency	50Hz
Power	50W

PRODUCT OVERVIEW

Component Name

NOTE

All the pictures in this manual are for explanation purpose only. Any discrepancy between the real object and the illustration in the drawing shall be subject to the real subject. Remove parts from the component before performing installation.

INSTALLATION INSTRUCTIONS

Installation Procedures

ASSEMBLY OF CHASSIS & COLUMN UNIT

- 1 Unpack the packing box and check the parts by referring to the part figure. From the column unscrew the plastic nut. (Fig.1)

Fig.1

- 2 Insert the column in the chassis and tighten the plastic nut. (If you can't tighten, check the nuts on the bottom of the chassis) (Fig.2)

Fig.2

- 3 From the extension pole loosen the height adjustment ring and adjust the internal pole to the desired height. (Note: If you can't find the internal pole, it slides inside the extension pole. You can pull it out from the extension pole.) (Fig.3)

Fig.3

- 4 To attach the head unit to the column, loosen the thumb screw on the bottom of the head unit.
- 5 Place the head unit on the column and tighten the thumb screw in alignment with the groove on the internal pole. (Fig.4)

Fig.4

GRILL & FAN BLADE ASSEMBLY

- 1 Unscrew the spinner clockwise (or take the spinner out from the bag) and the plastic nut counter clockwise to remove both of them. Fix the rear guard to the motor then tighten the plastic nut again. (Fig. 5)

Fig.5

- 2 Insert the blade into shaft, and make sure the rotor shaft pin is fitted into groove of the blade. Turn the spinner counter clockwise to tighten the blade. (Fig. 6)

Fig.6

- 3 Fix the front guard and the rear guard with circlip and then tighten the fan guard locking screw and nut. (Fig. 7)

Fig.7

- 4 Align the front grill buckle with the top line of the rear grill from top to bottom, after aligning, look at the schematic from the back.(Fig. 8)

Fig.8

- 5 Press the grill in both hands in sequence, and when it is installed, you will hear a click.
(Fig. 9)

Fig.9

- 6 Self-locking installation.(Fig. 10)

Fig.10

7 Oscillation control

To make the fan oscillate, push down on the oscillation knob located on the top of the motor housing. To stop the fan from oscillating, pull up the oscillating knob.
