Setting Up Your M9031 PRO

The first step is to download and install the APP HAVE FIT II indicated on the color box and shown up on the watch. Enter the APP and create an account for info sync. The app allows you to check data analysis every day and to personalize some functionalities, such as setting sedentary, calls notification, exercise goals and so on.

Connect M9031 PRO to your smart phone

HAVE FIT II APP supports the operating system of IOS 11.0 and Android 5.3 or above, and BT 5.3&3.0. It is available for more than 150 mobile devices.

1. Turn on Wireless on the mobile.
2. Download APP: HAVE FIT II

4. How to pair the watch for iOS users: .

First step: Open APP>device>add new device> choose M9031 PRO

5. In the search list, select the M9031 PRO with the strongest signal and confirm the pairing by clicking the pairing button on the watch screen as prompted by your phone 🟢. The Wireless icon on the watch will be blue in color 🔌, indicating that you are connected to Wireless 5.3.

Wireless 3.0 connection

iPhone users support Wireless 5.3 + 3.0 dual Wireless one-key link  (match according to the system prompts box operation)

Android users need to first time in the Wireless pairing interface in the "call service pairing options" click "to bind" and then follow the interface operation prompts to complete the Wireless 5.3 + 3.0 pairing, subsequent links to the phone will be on the watch 3.0 Wireless memory, so as to achieve dual Wireless one-key link  (if not automatically connected to Wireless 3.0, please manually search for Wireless watch model "M9031 PRO" on the phone)

Quick Fit Strap

M9031 PRO contains two parts(watch body and wristband), you can purchase separately strap and switch as your preference.

Charging Instructions

Charging: Turn the watch over, align and attach the charging pins to the magnet gold prongs. You will see the charging icon on the watch screen within 5s. Charging fully may take 2 hours. You will see the battery icon is full if the watch have been fully charged.

Please clean the charge interface before charging for fear that the remaining sweat erode gold metal contact or other risks.

*To get the maximum charging current and magnetic attraction, please refer to photo 2 for the right charging angle (the charging dock is aligned with the center line of the button on the watch)

Troubleshooting

Heart-rate signal missing

The M9031 PRO smart watch keeps paying attention to your heart rate data during your exercise and your daily life. Sometime the watch may not get a suitable heart rate signal. At this time, the missing heart rate data will appear at the dotted line.

If you can't get the heart rate signal, first you should confirm that you wear the watch correctly, adjust it to avoid being too high or too low, neither too tight nor too loose on your wrist. After adjustment, turn on real-time heart rate monitoring to get the data.

If there is still no heart rate data, check if the heart rate monitoring function is turned on at HAVE FIT II APP .

Other problems

If your mobile cannot pair the watch, click Settings Bluetooth in your mobile and check if there is signal of M9031 PRO. If yes, it means there is no problem with the Bluetooth signal. Please check if the watch is paired with other phones, please unbind it. IOS device users should click Setting - Wireless - ignore this device and then pair it.

Exemption Clause

1. The Heart Rate, Pressure, Blood Oxygen and Blood Pressure data output by M9031 PRO are not intended to be a medical or diagnostic basis.
2. Self-diagnosis and self-treatment are dangerous. Only qualified physicians are allowed to diagnose and treat high blood pressure or any other heart diseases. Please contact your physician for more professional diagnostic opinions.
3. M9031 PRO smartwatch data such as heart rate, blood pressure, etc. may not be completely accurate due to factors such as interference with environmental signals, wearing posture, changes in the climate environment, and physical condition.
4. DO NOT carry out drugs and treatment on the basis of the monitoring data provided by M9031 PRO, and should follow medical advice when medication and treatment are required, and we are not liable for the inaccuracy of monitoring data and the consequences of misuse of monitoring data and information.
